SUMMARY

Front-End Developer with 3+ years of experience designing and shipping production React and Next.js applications. Built and maintained 10+ reusable, accessible UI components, cut page load times by up to 50% through Next.js performance optimization, and shipped secure authentication and role-based access flows using TypeScript, Tailwind CSS, and Supabase. Comfortable owning features end-to-end from design handoff to production deployment in fast-moving, early-stage teams.

EXPERIENCE

Bizzmarrow Technologies — Frontend Developer *May 2025 – jan 2026*
Abuja, Nigeria (Hybrid)

- Architected and shipped a production-ready job platform application from 0 to 1 in an early-stage environment, translating ambiguous product goals into working technical specifications and interfaces.
- Designed and built 10+ reusable, accessible React/TypeScript components with Tailwind CSS, reducing feature development time by 30% and enabling faster iteration across the team.
- Partnered directly with founders and backend engineers to ship feature releases, triage and resolve bugs, and improve runtime performance, contributing to overall product quality during the company's early growth stage.

Malic Movies Company — Frontend Developer *Jun 2024 – Oct 2024*
Remote | Project: Corporate Blog & Content Platform

- Led front-end development of a corporate blog and content platform, building responsive, SEO-optimized interfaces in Next.js for a fully remote, cross-functional team.
- Reduced page load time by 50% through Next.js performance optimization (image optimization, code-splitting, caching), directly improving user experience and organic search performance.
- Built a streamlined article-publishing workflow for administrators using Supabase, cutting manual content-operations overhead and enabling faster editorial turnaround.
- Partnered with business stakeholders to translate requirements into production-ready features, working across design, content, and engineering functions.

PROJECTS

Docolab – Real-Time Collaborative Document Editor | *Next.js, TypeScript, Tailwind CSS, Supabase, TipTap, Yjs* | *Live Demo · GitHub*

- Built a real-time collaborative editor with live multi-user syncing (TipTap, Yjs, Supabase Realtime), comments, and image uploads.
- Enforced owner/editor/viewer roles with Supabase Row Level Security; added Gemini summarization with per-user rate limits.
- Wrote 76 automated tests (Vitest, Testing Library) and a GitHub Actions pipeline running lint, tests, and build on every pull request.

E-Commerce Platform | *Next.js, TypeScript, Tailwind CSS, Supabase* | *Live Demo · GitHub*

- Built a responsive, full-featured e-commerce application covering product browsing, cart management, and checkout, achieving 99.9% uptime on the checkout flow.
- Implemented secure user authentication and account management with Supabase, enabling personalized shopping experiences and order tracking.

Healthcare Appointment Management System | *Next.js, TypeScript, Tailwind CSS, Supabase* | *Live Demo · GitHub*

- Built a real-time availability management system processing 500+ appointments daily, instantly reflecting scheduling changes across the platform.
- Implemented appointment scheduling validation logic to prevent double bookings and ensure accurate time-slot availability for patients and providers.
- Built a centralized dashboard for monitoring and managing clinic schedules, and implemented role-based authentication and protected routes for secure, differentiated access for patients and administrators.

SKILLS

Front-End Development: HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React, Next.js
State & Data: React Hooks, React Query, Zustand, REST APIs, Zod, Drizzle ORM, TipTap, Yjs
Testing & Tooling: Vitest, Testing Library, Figma, VS Code, Chrome DevTools
Deployment & Collaboration: Supabase, Git, GitHub, GitHub Actions CI/CD, Vercel, Agile/Scrum workflows, Jira/Notion
Quality & Accessibility: Responsive design, cross-browser compatibility, Web Accessibility (WCAG basics), Core Web Vitals / performance optimization

EDUCATION

Bachelor of Science in Computer Science, Ebonyi State University *2018 – 2022*
